

Galleri Multi-Cancer Screening Available to Curative Members Aged 50+

Curative is proud to offer eligible members no-cost access to the Galleri® multi-cancer early detection test from GRAIL. Galleri is the first-of-its-kind — a test that looks for a signal shared by more than 50 types of cancer with a single blood test. Further testing is required to diagnose cancer. Curative is offering access to the test with \$0 out-of-pocket costs once your annual Baseline Visit is completed.

Who is eligible?

- ✓ Active Curative plan members residing in the United States who have also completed their annual Baseline Visit
- ✓ Ages 50 years old and older
- ✓ Not currently pregnant
- ✓ Not currently undergoing active cancer treatment, though history of cancer* with treatments completed at least 5 years ago is permitted

*excludes basal or squamous cell carcinoma of the skin

How it works:

Request the test at galleri.com/curative

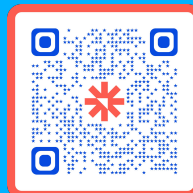

After you've been approved, complete your blood draw at a GRAIL partner lab via galleri.com/schedule

Receive your results typically within 2 weeks after your sample is received at the GRAIL lab

Download one-pager
